

NASA SEWP

A Recommended Choice
for IT Acquisitions

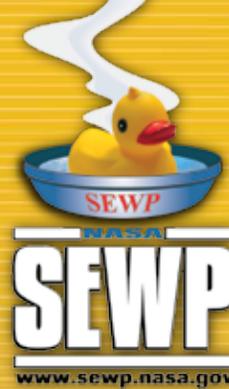

Here's what government customers
have to say about NASA SEWP:

“It makes getting things—IT
products—a lot easier, a lot
quicker, and looks to be less
expensive when we compare
the pricing to other items.”

“It's made the job a little bit
easier by going to SEWP rather
than looking to other sources.
I can go right to SEWP knowing
that I'll get a good price.”

“Anytime I've called, I've gotten
good help. Anytime we've written
emails, the response time
has been less than 24 hours,
sometimes in just a couple of
hours.”

“SEWP seems to be quicker,
less expensive, and the help
from both the contractor side
and the SEWP staff is just
phenomenal.”

Speed, Flexibility, and Value:

NASA SEWP helps
VETERANS AFFAIRS

“Do IT Right”

SEWP

A choice provider of IT Solutions for Veterans Affairs

With VA's increased usage of the NASA Solutions for Enterprise-Wide Procurement (SEWP) contract vehicle, more and more VA personnel are turning to SEWP to supply their IT needs. SEWP gives VA easy access to a large number of IT products from a wide variety of contract holders.

- Nearly a million unique IT products from 2,000+ manufacturers
- 38 pre-competed contract holders, of which 21 are to small business (3 Veteran-Owned businesses and 6 SDVOSB's)
- Several non-competed 8(a) set-aside contracts

SEWP assists VA with purchasing compliance by:

- Accepting orders only through your procurement organization, according to your procedures, terms, and conditions
- Assuring scope compliance through contract and order review processes
- Making it easy to meet small business goals
- Providing FREE on-site training highlighting effective and proper use of SEWP contracts

SEWP streamlines VA IT purchasing

Find what you need on SEWP:

- High-end, state-of-the-art IT hardware and software products and solutions, including servers, storage systems, security products, and more!
- Installation, training, maintenance, warranties, and initial support for the solutions you purchase
- Product offerings updated within hours

Save time by using our personalized online tools to quickly:

- Search for product, manufacturer, and pricing information
- Conduct market research RFI's and submit RFQs
- Track orders online
- Retrieve order history—including previous quotes
- Find products that are pre-approved by VA for purchase

Save money:

- Pre-competed and pre-negotiated contracts
- 38 contract holders ensures fair and reasonable pricing
- Lowest fee structure of any GWAC

The current SEWP surcharge is just 0.60%, capped at \$10,000 per transaction. SEWP is the only product GWAC with a fee cap.

Learn to “Do IT Right”

The SEWP Program Office provides two training options that are designed to meet your educational needs as well as fit within your schedule.

On-site personalized training:

SEWP professionals travel across the country offering free on-site training at VA Medical Centers and annual VISN meetings. The on-site training provides in-depth knowledge about the SEWP contracts, best practices for utilizing them, and a web-demonstration to ensure attendees can leave the room and start using the contract immediately. Contact them at events@sewp.nasa.gov to arrange for a visit. SEWP also provides training courses at major government conferences throughout the year—be sure to check the online calendar on the SEWP website for an up-to-date schedule of upcoming events. Once you complete the in-person training you will receive a training certificate representing two Continuous Learning Points (CLP).

Online training:

Web-based video training is available as well, providing temporary guidance to use SEWP until on-site training is requested. The video training provides the basics to best utilize the SEWP contract vehicle. Other online resources include FAQs and information pages, which can be found on the SEWP website.
